LEARN MORE AT energystar.gov

ENERGY STAR®, a U.S. Environmental Protection Agency program, helps us all save money and protect our environment through energy efficient products and practices. For more information, visit www.energystar.gov.

Dear ENERGY STAR® Computer Servers Stakeholders:

Please see the attached important correspondence from the U.S. Environmental Protection Agency concerning the ENERGY STAR Version 2.0 Computer Servers Program Requirements. EPA has learned of an update to the Standard Performance Evaluation Corporation (SPEC) Server Efficiency Rating Tool (SERT). Computer Servers should now be tested with SERT Version 1.0.1. The attached memo contains a full explanation of this clarification to the Version 2.0 Program Requirements.

Thank you for your continued support of the ENERGY STAR Program.
