

2007年11月8日配信 メール本文

This message is being sent to you on behalf of EPA and DOE's ENERGY STAR® program.

Dear ENERGY STAR Computer Partner or Other Interested Stakeholder:

This message contains important information regarding the Tier 2 effective date proposed in the ENERGY STAR Version 4.0 Computer Specification as well as information on upcoming Tier 2 development activities this fall.

### **Specification Clarification: Tier 2 effective date**

The attached clarification memorandum provides details on a Tier 2 effective date change.

- The new effective date for Tier 2 will be **July 1, 2009**. The memorandum lists appropriate changes to the specification document text.

### **Tier 2 Updates and Coming Events**

In light of the new timeline, EPA proposes holding a web conference with stakeholders this fall in place of a previously proposed face-to-face meeting. Prior to this web conference, EPA will provide, along with web conference details, a discussion guide and slide deck for the meeting. These documents will detail current progress on Energy Efficiency Performance Assessment activities and include pending issues and discussion questions intended to begin the development of Tier 2 for computers. The discussion guide and slide deck will be made available soon, both via email to EPA's computer stakeholder contact list and on the ENERGY STAR Specification Revision website. Stakeholders will have at least two weeks notice before the web conference is held.

Please contact Katharine Kaplan, EPA, at [kaplan.katharine@epa.gov](mailto:kaplan.katharine@epa.gov), or Evan Haines, ICF International, at [ehaines@icfi.com](mailto:ehaines@icfi.com) with questions. Thank you for your continued support of ENERGY STAR!
